

FIT OSHA COMPLIANCE INTO YOUR BUSY SCHEDULE

Train Your Operators Online

Don't interrupt your busy operations by taking an operator off the warehouse floor to maintain OSHA forklift compliance.

Replace your time consuming internal classroom training with Lift Operator Training's online forklift certification course and train your operators when it best fits your operation's schedule.

Online package includes:

- ✓ Access to Lift Operator Training's online forklift certification course. Share a bulk company-specific coupon code with your operators for easy signup.
- ✓ Access to an individualized company dashboard online to manage your operator's hands-on driving test via a calendar appointments system.
- ✓ Ability to issue digital, mobile-friendly OSHA compliance certificates for accurate internal record keeping. PDFs are available for printing.
- ✓ Ability to track individual operator online course progress. Operators can learn at their own pace.

1. Sign Your Operators Up Online

Receive a company-specific coupon code to share with your operators to make signing up online easy.

2. Certify Your Operator's Ability

After your operators complete the online course, certify their ability to operate a forklift at your site.

3. Issue Certificate for Records

Use your company dashboard to "pass" your operators and create OSHA compliant, digital certificates or PDF print copies for internal records.
